

Isolation vacuum valves

Isolation valves for all vacuum applications

PFEIFFER 
VACUUM+FAB SOLUTIONS

Part of the **BUSCH** GROUP

Reliable

Robust and rugged construction, reduced downtimes, field-tested designs to ensure high performance and consistent operation in all vacuum environments, from semiconductor applications to R&D and industrial use

Sustainable

Long product life cycles, easy servicing, low costs of ownership, environmentally-friendly

Versatile

Wide range of products for all vacuum applications, from high vacuum to ultra-high vacuum, from manual to electric drives, ideal for individual process requirements

Accessories, spare parts and options

- Connectors
- Seal kits
- Bellow kits

Isolation vacuum valves

Isolation valves for all vacuum applications

VACUUM+FAB SOLUTIONS

Part of the **BUSCH** GROUP

| | Series E: Electric angle valves | HV and UHV manual angle/inline valves | HV and UHV pneumatic, electropneumatic angle/inline valves |
|--------------------|---------------------------------|---------------------------------------|--|
| Size | DN 16 – DN 50 | DN 16 – DN 100 | DN 16 – DN 100 |
| Material | Aluminum & Stainless steel | Aluminum & Stainless steel | Aluminum & Stainless steel |
| Connection | KF | KF/ISO-K & CF | KF/ISO-K & CF |
| Position indicator | Yes | Yes | Yes |

| | HV and UHV gate valves | Pneumatic pendulum valves | Ball valves |
|--------------------|----------------------------|---------------------------|-----------------|
| Size | DN 16 – DN 300 | DN 200 – DN 320 | DN 16 – DN 50 |
| Material | Aluminum & Stainless steel | Aluminum | Stainless steel |
| Connection | KF/ISO-F & CF | ISO-F/JIS | KF |
| Position indicator | Yes | Yes | Yes |
